Product Information: **PFOA**

Dear Sir or Madam;

In the manufacture of the below-mentioned product lines supplied in Europe from BASF Group Companies, PFOA (CAS 335-67-1) is not used as a raw material. After consulting relevant raw materials suppliers and based on the knowledge of our production process, we have no reason to assume that PFOA is present in the product equal or above 25 ppb.

However, please note that we do not analyse the product for the presents or absence of PFOA. Furthermore, PFOA was used in the past in high quantities by the global industry and due to its stability and persistence it can be considered ubiquitously present (in the environment).

This statement applies to the following product lines:

**3S Modifier
BASOTECT®
ECOFLEX®
ECOVIO®
NEOPOLEN®
NEOPOR®
PALUSOL®
PERIPOR®
STYROPOR®
ULTRADUR®
ULTRAFORM® and ULTRAFORM® AT and POM N
ULTRAMID®
ULTRASON®**
